

APICS Certified Supply Chain Professional

CSCP

LOOK INSIDE

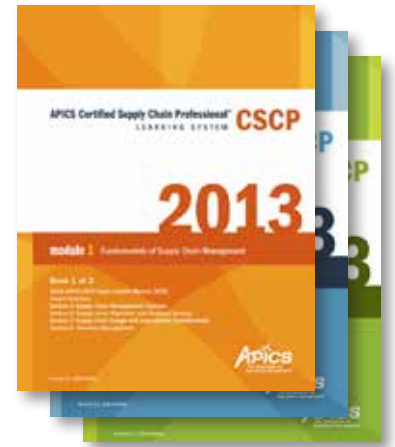

for ways to achieve success in your
supply chain management career.

**Boost Your Supply Chain
Performance and Productivity**

Distinguish Yourself as a Supply Chain Expert

With the APICS Certified Supply Chain Professional (CSCP) program, you can take your career and organization in a new and exciting direction. Shape your future, align your goals, and distinguish yourself from the competition. In this challenging global marketplace, only the most well-trained, well-educated professionals will be sought after by employers and valued by organizations. Join their ranks today by earning the APICS CSCP designation.

APICS CSCP Program Benefits

- The only certification that encompasses the end-to-end global supply chain.
- Administered in 62 countries and preferred by leading companies worldwide.
- The highest standard of certification based on a psychometrically validated exam and body of knowledge.
- Employers and recruiters seek APICS CSCP designees.
- The APICS CSCP increases your professional value and secures your future.

By earning the APICS CSCP designation, you will demonstrate significant commitment to your profession and your career, distinguish yourself as an industry expert, and excel with your newly acquired specialized knowledge.

Address Today's Pressing Supply Chain Challenges

The APICS CSCP program builds knowledge in strategic and practical functions that can be applied to today's critical challenges and performance improvement opportunities. APICS CSCP Learning System modules were developed with deeper integration of

- best practices in the day-to-day functions of supply chain professionals
- technologies that drive improvement in planning and operations.

"The APICS CSCP program is very useful in designing, introducing, and implementing cost-reduction programs. By looking beyond just the costs related to procurement and reviewing all real costs within the total supply chain, I've gained tremendous insights that often resulted in impressive opportunities to reduce various costs in the entire supply chain."

John Van Veen, CSCP
Procurement Consultant
Benefit Value by
Procurement,
Netherlands

Now more than ever, it's important to demonstrate your mastery of the best practices and techniques that can maximize your organization's efficiency and impact the bottom line.

About APICS The Association for Operations Management

APICS The Association for Operations Management is the global leader and premier source of the body of knowledge in operations management, serving nearly 40,000 members globally. The APICS education and certification programs are recognized worldwide as the standard of professional competence in production and inventory management, operations management, and supply chain management.

Join APICS to access local APICS chapters, networking opportunities, exclusive research reports, publications, and educational programs and products that create avenues for increased professional development and career growth, helping you meet the fast-changing demands of the workplace.

Move Your Career Forward with the APICS CSCP

How You Benefit

The APICS CSCP program will give you more credibility and recognition in your workplace. You can distinguish yourself by committing to continued education that will help you sharpen your skills. This program gives you the opportunity to master supply chain management and all its facets—all on the cutting edge of new developments and concepts.

How Your Organization Benefits

From day one, you can apply your APICS CSCP program knowledge to solve everyday work issues. Your knowledge and expertise will make you more valuable in your organization. Companies that sponsor all or part of their employees' tuition will gain a return on investment in the form of long-term loyalty and more productive employees.

With APICS CSCP, employees gain

- the proven knowledge and organizational skills to strategically streamline operations
- the tools to effectively manage global supply chain activities that involve suppliers, plants, distributors, and customers located around the world
- the skills to create consistency and foster collaboration through best practices, common terminology, and corporatewide communication
- an understanding of the valuable technologies that drive planning and management of successful operations.

Multinational corporations increasingly list “APICS CSCP required” in their job postings. Some corporations are now requiring APICS CSCP certification for job families and as prerequisites for promotions. Move your résumé to the top of the stack with the APICS CSCP program.

APICS CSCP Can Help with ERP and CRM Implementation

Throughout the APICS CSCP Learning System, you will be exposed to the role enterprise-level software and technologies play in high-performing operations. With the APICS CSCP, you will understand implementation strategies for technologies including enterprise resources planning (ERP), customer relationship management (CRM), advanced planning and scheduling (APS) systems, and more.

Maximize the Value of Your Certification with an APICS Membership

APICS membership and certifications complement each other. APICS membership offers networking, education, and exclusive industry content, while APICS certification programs provide relevant, essential education that equips you for today's fast-changing marketplace.

- Improve productivity through APICS education, training, and certification programs, all discounted with an APICS membership.
- Gain a competitive advantage. Stay current on industry trends and developments through the free, monthly, and award-winning *APICS* magazine.
- Enhance the bottom line. Apply APICS best practices and solutions to improve quality and gain efficiency throughout your organization.
- Take advantage of networking opportunities with peers from various industries and across the globe.
- Join a global network of supply chain professionals online in member forums at supplychainchannel.org.

The APICS CSCP Learning System

The 2013 APICS CSCP Learning System is a comprehensive professional development and exam preparation program. It consists of three print modules and web-based study tools that reflect the entire *APICS CSCP Exam Content Manual (ECM)* and provides you with a broad view of global end-to-end supply chain management.

The 2013 APICS CSCP Learning System supports recent structural and content changes to the APICS CSCP exam. Each module will further empower you with an understanding of best practices, techniques, and technologies necessary to maximize your organization's efficiency and impact the bottom line.

MODULE 1

APICS Fundamentals of Supply Chain Management

- Broad concepts of supply chain management, including primary processes, objectives, integration methods and benefits
- Alignment of supply chain and business strategies
- Key considerations for supply chain design and continuous improvement
- Key measures for planning and controlling inventories
- Fundamentals of logistics in supply chain management
- Identifying and managing market segments
- Demand forecasting and management techniques
- Keys to effective CRM
- Core concepts of supply management

MODULE 2

APICS Supply Chain Strategy, Design, and Compliance

- Sustainability practices in design and operation of a supply chain
- Risk, its sources, impacts, and mitigation methods
- Globally dispersed supply and demand, and the impact of free trade zones and trading blocs
- Globalization effects on inbound and outbound logistics
- Measurement of, and efficiency and responsiveness in the supply chain
- Technologies for design, data, operations and communications in supply chain management
- Factors influencing demand, including design, marketing, selling, and matching customer orders
- Core concepts of CRM, including strategies, technologies, and key implementation challenges
- Fundamentals of supplier relationship management (SRM), including strategies, improved management of sources, relevant technologies and measurement
- Inventory planning and control methods

MODULE 3

APICS Implementation and Operations

- Supply chain dynamics and the balance of responsiveness and efficiency
- Managing supply from internal and external sources
- Implementation of demand plans, including prioritization and fulfillment, and capturing and communicating point-of-sale data
- Tools and techniques to support continuous improvement strategies

Learning System Components*

Comprehensive Print Materials

- Five books with approximately 1,000 pages of content.
- Progress check questions at the end of each section.
- Organized information from more than 150 references.

Interactive Web-Based Components

- Pretest to determine your strengths and weaknesses and help you create a customized study plan based on your individual needs.
- Module- and section-specific tests offer immediate feedback, answer rationales, and reference the relevant sections in the text so you can review problem areas.
- Posttest to determine your progress.
- Progress report revealing the web-based tools you've completed to date and how well you have mastered the material.
- E-flashcards with relevant terms and definitions, and an online glossary for quick reference.
- Practice test bank of more than 900 multiple-choice questions.
- Access to the Resource Center, including a complimentary electronic download of the 2013 ECM, additional study resources, and test-taking tips.
- Earn a certificate of achievement by scoring 80 percent or higher on the posttest.

Study on-the-go! Access the 2013 APICS CSCP Learning System online using your web browser, iPhone, iPad, or Android mobile device.

*The APICS CSCP Learning System does not include the cost of the APICS CSCP exam.

Enhance Your Supply Chain Education Today

Whether you are beginning your career in operations or supply chain management or you are an experienced professional in the field, the APICS CSCP program is designed to meet the needs of working, adult learners. We provide flexible educational options that make it easier to pursue certification while you work to increase your earning potential and advance your career.

APICS CSCP Study Options

Self-directed learning

This study method gives you the freedom to access the course whenever you need to and from wherever you are, enabling you to learn in your own style, at your own pace:

- Study anytime and anywhere in a self-paced format.
- Access print and web-based components.
- Access tools, tests, and reports at flexible times.

Instructor-led learning

The instructor-led format combines the APICS CSCP Learning System print and web-based components with the guidance of an experienced instructor.

- Get the one-on-one attention and intensity of an instructor-led APICS CSCP course.
- Prefer to learn in a structured classroom setting.
- Enjoy peer discussion and live instruction from a qualified instructor.
- Courses are taught in communities across the United States and around the world.

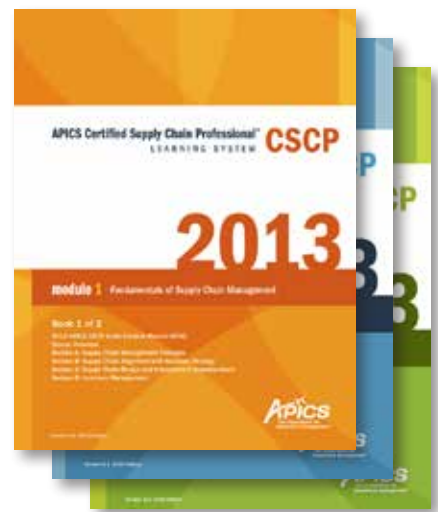

APICS instructor-facilitated online courses

Fox Valley Technical College offers an online APICS CSCP course that combines the benefits of distance learning with the assistance of experienced instructors.

- Access online self-study tools whenever and wherever you want.
 - Study at your own pace.
 - Learn in an online, interactive format, using quizzes, diagrams, and video presentations.

Corporate or group learning

Educate small or large groups of employees using APICS CSCP training materials and take advantage of volume discounts for groups of two or more. The program can be offered in a self-directed or instructor-led format at your facility.

Take the APICS CSCP Learning System free demo at apics.org/cscp.

“APICS CSCP Learning System is an excellent way of learning and testing your CSCP knowledge simultaneously. The best part of this system is its web-based tools that are easily accessible anytime, anywhere, and around the globe—which is a very big plus for busy professionals.”

Manish Patel, CSCP
Principal Consultant,
Oracle USA
